Math Placement Exam

Abu Dhabi Polytechnic

MATH PLACEMENT EXAM

Place: Abu Dhabi Campus: Mohammad Bin Zayed City, Abu Dhabi
Polytechnic, 2nd Floor

Al Ain Campus: Abu Dhabi Polytechnic, Al Ain, Airport Area

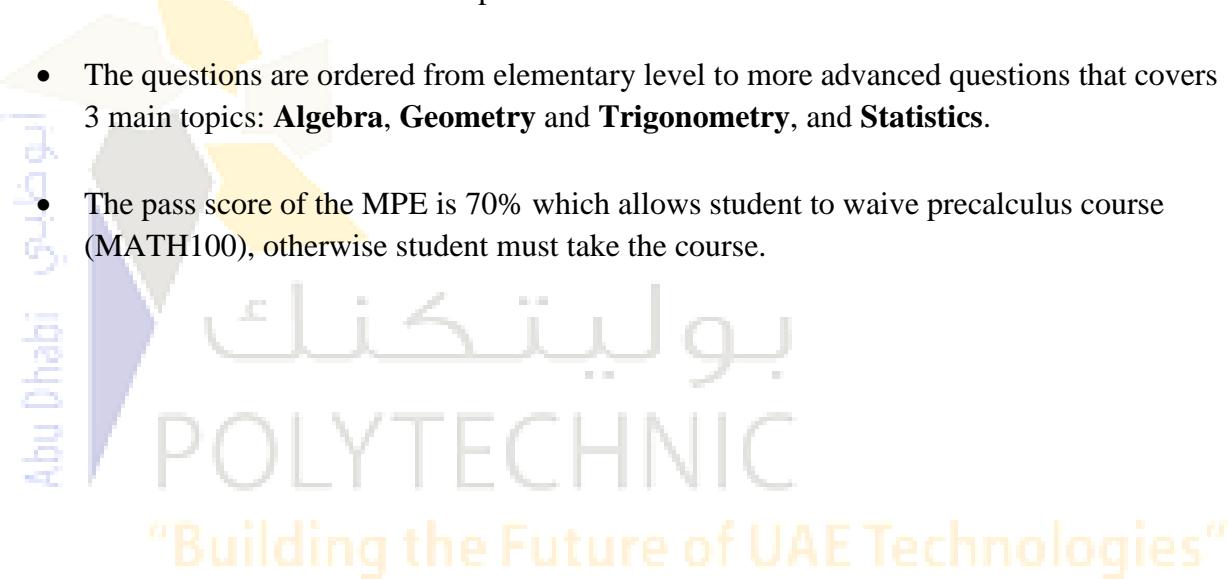

"Building the Future of UAE Technologies"

- **What is the Math Placement Exam**

All students admitted to Abu Dhabi Polytechnic (ADPoly) must take the Math Placement Exam (MPE). Exam results will be used for placement purposes in the appropriate mathematics course for all programs offered by AD Poly. The Academic Support Department at ADPoly uses the result of the exam, to check the math knowledge and skills level of the new students. Hence, the student can be placed at the right math level.

- **General Characteristics of the Exam**

- The exam consists entirely of 50 multiple choice questions, each with four choices. The time allowed is 2 hours to complete the exam.
- The questions are ordered from elementary level to more advanced questions that covers 3 main topics: **Algebra**, **Geometry** and **Trigonometry**, and **Statistics**.
- The pass score of the MPE is 70% which allows student to waive precalculus course (MATH100), otherwise student must take the course.

The exam is done on the computer and it has been built using a multiple-choice format

• The Covered Topics in the Exam

- Algebraic operation on numbers
- Approximate numbers and scientific notations
- Algebraic operations on expressions and equations
- Concept of a function and various functions properties and their graphs
- Solving linear and quadratic equations using various methods
- Solving logarithmic and exponential equations.
- Measurements of angles, lines, triangles, circles and solid figures
- Concept of trigonometric functions and properties of right triangle
- Signs of the trigonometric functions of any angle
- Radian measure and applications
- Vectors and applying the law of sines and cosine on oblique triangles
- Concept of a matrix and Cramer's rule
- Graphs of trigonometric functions
- Elementary statistical concepts and measures

You will save at least one semester of taking math by taking the time to do a careful review of the placement math exam.

• How to Prepare For The Exam

- Use the following tutorial web pages, which might help you make a review of all the above topics:

[Khan Academy \(web site: \[www.khanacademy.org\]\(http://www.khanacademy.org\)\)](http://www.khanacademy.org)

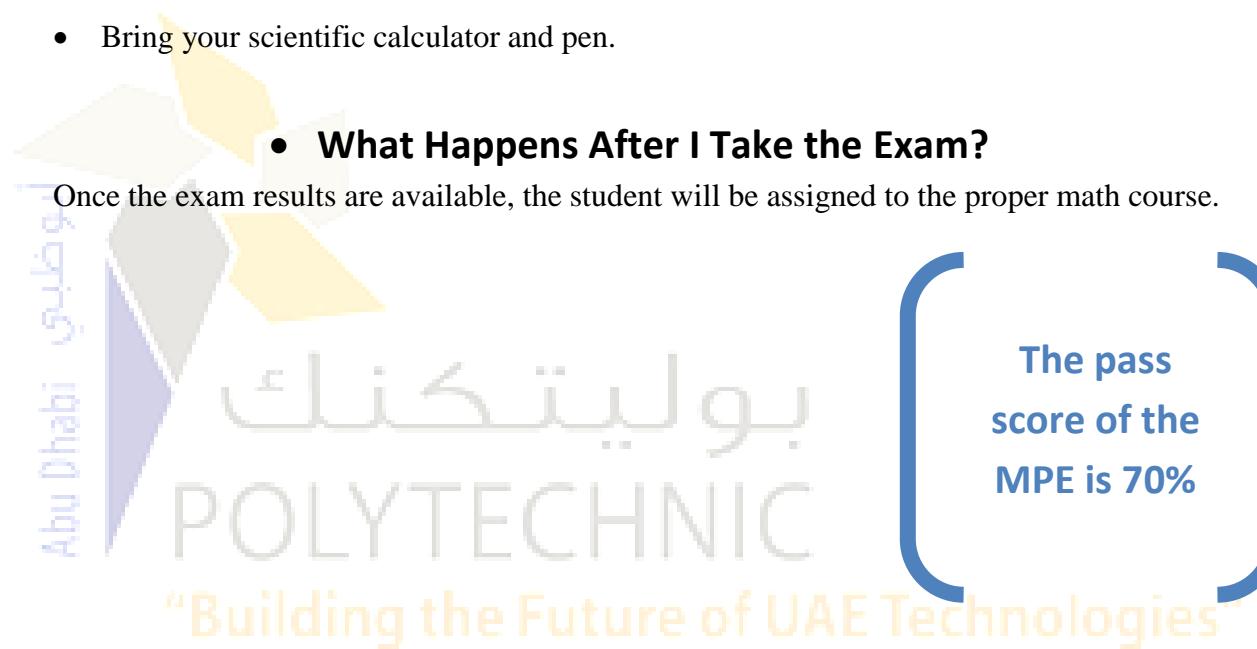

[Patrickjmt \(web site: <http://patrickjmt.com/>\)](http://patrickjmt.com/)

- You can also see the following reference **books**:
 1. Washington, A. (2009) *Basic Technical Mathematics with Calculus*, Prentice Hall, 9th Edition.
 2. Wallace, T. (2010) *Beginning and Intermediate Algebra*,
<http://wallace.ccfaculty.org/book/book.html>
 3. Sullivan, M. (2015) *Precalculus* , Prentice Hall, 10th Edition.
- Check the hardcopy of the sample exam, which is attached to this document, it will give you an idea about the exam level and types of questions.
- Bring your scientific calculator and pen.

- **What Happens After I Take the Exam?**

Once the exam results are available, the student will be assigned to the proper math course.

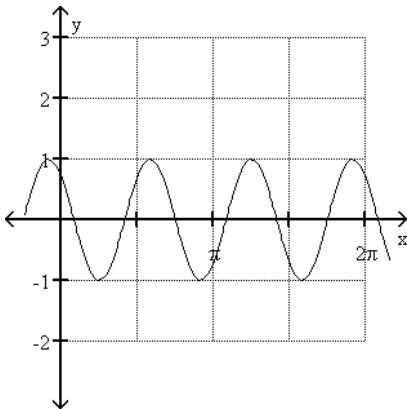

The pass score of the MPE is 70%
